1. Welcome
2. Goal/Action Items Progress
  - A. Youth Homelessness Program Explanation at February Governance Council
    - a. Update from Cindy and group: Outline sent to participants, group will meet the last week in January. Jan 27, 10am.
  - B. Follow Up: Youth Listening Session on Homelessness and Services
    - a. Move further on progress:  
How to get input from youth for the CoC? As a survey or a listening session? Stephanie is working on something similar now and has past work she can send out to the group. Need to think about how to have youth input on CoC support that stays out of program function. Would be nice to do a survey in the UP as we try to grow there. McKinney Vento Liaisons could be a good resource there. Could have a survey link that MKV can share directly with youth. Can reach out to the MKV at Dept of Ed to coordinate.
  - C. Increasing Coverage to UP and Northern Lower Peninsula Counties (Under 18)
    - a. Update from MDHHS and potential providers:  
Lynn connected with Michelle LaJoie at Community Action Alger Marquette (CAAM) who are also the HARA for 10 counties in Central UP. They are beginning the conversation to see where it goes.
3. New Business:
  - a. Providing SO to adult populations: No conflict as long as the work is kept separate and according to grant specifications. 22-25 years of age are in the middle between funding source definitions of youth. Can be helpful to keep all street outreach with one provider in the community. Also need to be clear about how street outreach is defined—not typically ongoing case management, especially in adult populations.
4. Adjourn
