

# ESG Committees

Meeting #3: ESG NOFA Review

---

**MiBOSCO**

Michigan Balance of State  
Continuum of Care

# Changes in the NOFA

- No matching requirement to increase HARA funding
- RRH and Prevention are allowable to any eligible and affirmed agency
  - Enables newer ESG-CV funded agencies to continue with ESG if desired for RRH and Prevention this includes DV providers

# Budget Requirements

40% of allocation at minimum to the HARA

Of this, 20% minimum of HARA rental assistance must be for RRH

## Caps:

Shelter: 30%

HMIS: 10%

Admin: 7.5%

No subgrants less than \$10,000

# ESG Application Documents

- No longer required to resubmit HCV Key Person Security Agreement for staff already in the system
- Assistance from MSHDA to determine new subgrantees [HERE](#)
- PDF version of the MATT 2.0 Application should also be completed for any subgrantee

# Mapping Need

As a community it is important to look at:

- How many households are on the By Name List
  - What interventions are they waiting for?
- How quickly is the HARA able to complete assessments for callers?
- Do you have Street Outreach/Housing Advocacy? Who are you missing/losing at system access?

# Beginning the Conversation

Review the NOFA and Webinar from MSHDA

What funding is necessary to maintain core activities?

Are new parameters something that can help?

# Planning Ahead

As a community you should also map out where you want to be and how to get there.

You need Street Outreach but can't afford to reduce infrastructure spending. What can you do over time?

# New Ideas?

Who is considering using new allowances in ESG policy this year?

Future years?
