

FY2023 FAQ for Renewal Applications

1. Is there a separate application for the SSO program renewals?

Yes! Use the Infrastructure application that's on the website just below the renewal housing application.

2. In the Housing Renewal Application, Attachment B: I'm assuming that #2 and #3 don't apply for first year renewal applications, is that correct? I didn't see any guidance on those on the instruction sheet.

This is correct. First year renewals should skip those attachments.

3. What do you suggest we put for the Project Start Date considering we haven't received our initial grant agreement?

This is only internal to our CoC and isn't binding, we can adjust once we know more. You can pick 8/1/2024, 9/1/2024, or 10/1/2024 depending on how hopeful you are on getting your grant agreement.

4. In the Housing Renewal Application, question 21, I'm having difficulty formatting the text for my answer (I can't click enter to start a new paragraph). Are you ok with me writing my answer on a separate word document and submitting with the rest of the application?

Absolutely. Or just one big run on paragraph and we won't hold it against you!

5. In the Housing Renewal Application, question 29, when we're inputting the match portion of the total project cost, are there any requirements as to how we apply our match among the rental assistance, supportive services, and project admin line items (ex. certain percentages of the 25% match)? Or are we free to choose where our match is applied?

Nope, no requirements except that it be an eligible expense for both this grant and the source of the match funds.

6. In the scorecard question 2.5, it states that 100% should have literally homeless previous living situations. There are some circumstances where other previous living situations are allowed. What should we do?

Add your explanation regarding the number coming from other previous living situations to another document and attach it to your application materials.

7. What is the LPB Acknowledgement Form?

FY2023 FAQ for Renewal Applications

That is the same thing as the LPB Participation Form and can be found with the other application materials.
