

Hello! My name is Katrina Pelfrey. I am the Community Project Officer at the Allegan County Community Foundation.

I have been a member of the BOS Governance Council since 2021, and a member of the Balance of State Executive Committee and the BOS Secretary since Jan. 2023.

As Community Project Officer, I am leading a newly acquired county-wide Housing Assessment while coordinating the Allegan County Local Planning Body. My positions as a Governance Council and Executive Committee member allow me to act as a liaison between the BOS and my LPB. I consistently attend monthly BOS meetings including Governance Council, Executive, Membership and Equity and Funding, while providing temporary administrative support to the DV, HELP and Coordinated Entry committees.

Currently, I serve on several local and state committees in addition to the BOS, including the Michigan Regional Housing Plan, the Allegan County Community Health Improvement Plan (CHIP), the MCTEH Communications team, and more. Developing collaborative relationships is extremely important to me. I am thankful for the opportunity to work with exceptional Allegan County and state leaders.

I appreciate the implementation by the BOS Exec team to facilitate a streamlined system approach among the Local Planning Bodies within the context of the Michigan BOS. The BOS leaders are inclusive, welcoming and professional. I would be honored to continue serving as Secretary for 2024-2025.
